Measurement of the Longitudinal Single Spin Asymmetry, A_L , for Polarized
Proton-Proton Collisions in the $W \rightarrow \mu$ decay channel

A Dissertation submitted in partial satisfaction
of the requirements for the degree of

Doctor of Philosophy

in

Physics

by

Michael John Beaumier

August 2016

Dissertation Committee:

Professor Kenneth Barish , Chairperson
Professor Rich Seto
Professor John Ellison

Copyright by

The Dissertation of Michael John Beaumier is approved:

Committee Chairperson

University of California, Riverside

Acknowledgments

In no particular order now, but say something nice about each person.

Advisors and Mentors

Ken Barish, Richard Hollis, K. Oleg Eyser, Ralf Seidl, Francesca Giordano, Joe Seele, Josh Perry, Martin Leitgab, Chris Pinkenburg, Martin Purschke, Collaborators, Sangwha Park, Daniel Jumper, Abraham Meles, Chong Kim,

Friends and Family

Bob Beaumier, Marian Beaumier, Joe Beaumier, David Beaumier, Emily Vance, Jackie Hubbard, Alexander Anderson-Natalie, Corey Kownacki, Chris Heidt, Pat Odenthal, Behnam Darvish Sarvestani, Oleg Martynov,

Some say that it takes a village to raise a child. The same can be said of raising a graduate student up to earning a PhD. This thesis is dedicated to the multitude who have helped me become the man I am today, and to students who struggle, and their mentors who do not give up on them.

ABSTRACT OF THE DISSERTATION

Measurement of the Longitudinal Single Spin Asymmetry, A_L , for Polarized
Proton-Proton Collisions in the $W \rightarrow \mu$ decay channel

by

Michael John Beaumier

Doctor of Philosophy, Graduate Program in Physics
University of California, Riverside, August 2016
Professor Kenneth Barish , Chairperson

Abstract should be double-spaced and limited to 350 words or 2,450 characters.
